**KOMBINATIONSMØBLER**

**TV**

II VAD skal man gøre, når pengene ikke er store, og man alligevel gerne vil have smukke, nye møbler? Det spekulerede Grete og Johan lidt over. Indtil de fandt disse smukke og hensigtsmæssige kombinationsmøbler, der kan stykkes sammen lidt efter lidt. Møbelhandleren fortalte dem, at man kan begynde med et grundelement f. eks. til en sofa samt to plader og et enkelt siddeelement. Derefter kan man udvide med flere siddeelementer, og pladerne kan flyttes over på grundelementet til et sofa-bord. Og sådan kan man blive ved. Se blot på billederne. Møblerne er tegnet af arkitekt Illum Wikkelsø og fremstillet i Hjørring. Stoffet hedder Rapallo og er tegnet af arkitekt Torsten Johansen. Vejledende priser findes på side 69.

Sådan starter man. Det er grundelementet til en sofa, et siddeelement og to plader smukt sat to plader, der senere kan bruges til sofa-bordet

Der er gået nogen tid, og der er blevet nået til siddeelement og en plade, som Grete og Johan har spillet kort ved. Senere kommer tøret til endnu flere elementer.

Og her er stuen fuldt møbleret. Der er et siddeelement, en fjernsynsboks i forgrunden og et sofa-bord samt to stole, der ene med armstøtte. Plader og siddeelementer passer over det hele. Opstillingen er forløst af Ulf Møbler, København.

## FACTS:

Easy chair and sofa  
made by: N.Eilersen  
Model No.4 Capella

In the late 1950s, as a profit from cutting, large quantities of cheap teak wood (in the size 1x2x24 English inches) came on the world market. Wikkelsø and Eilersen used it to make this chair, which is made of just such pieces. For example. the armrests are made in the same way as a cricket bat, in that two pieces are glued to the top of the armpit. The chair is part of a modular program where chairs could be assembled into sofas of infinite length. The furniture is also made of other types of wood than teak.

## FACTS:

Cabinet  
model 90  
made by  
Søren Villadsen.

This cabinet was designed by Illum Wikkelsø and produced by Danish company Søren Willadsen in the 1950s. The cabinet features three sliding doors hiding shelves and drawers. The cabinet is made of veneered teak while the frame is made of oak. It has some small dents (see photos) but overall is in very good condition. The model 90 was first presented in 1953.

*Midten: Lænestol, sofa og sofabord  
nr. 40 tegnet af arkitekt Illum Wik-  
kelsø. Fremstilles i røgfæret eg  
med teakarmstæn, løse skumgummi-  
hynder med lynlås. Møblerne er til  
at skille ad, hvilket betyder en stor  
lettelse for husmoderen, der skal  
gøre rent i stuerne. Desuden er  
møblerne lette at flytte, da de ikke  
vejer ret meget i forhold til tidli-  
gere tiders tunge møbler.*

## Kønne og solide fyrretræs-møbler til sommerhuset

**Polstrerede møbler, der er beregnet til at slappe af i**

så bordets længde kan blive 2,20 meter. Prisen (den vejledende) er lidt under 2000 kroner. Ligeledes massive og enkle fyrretræsstole med højere eller lavere ryg koster fra ca. 350 kroner til ca. 370 kroner. Et andet bord er forsynet med to klapper— hver 60 cm lange — samme længde som den faste del af bordet, der samtidig er en meter bredt. Det giver 1,80 cm bord for ca. 1600 kroner. Et

En hvile- og hyggegruppe er absolut ikke overflødig i fritidshuset. En billig og alt andet end kedelig løsning er stalmøbelserien Senator fra Homa. Møblerne er fremstillet af 70 mm rektangulære stålør og er plastbehandlet med en mat, sort finish, som giver en smuk overflade. Hynderne er be- trukket med finsk bomuldsstof i en stor tern, der passer til linjerne i møblerne. Prisen for

en hel møbelgruppe omfattende 3-personers sofa, to- personers sofa, stol og bord vil være ca. 2500 kroner.

I en anden, mere eksklusiv klasse er serien Tellus fra C. F. Christensen A/S og tegnet af Illum Wikkelsø. Prisen for en tre-personers sofa i denne se- rie er ca. 5000 kroner (med ud- valgt stof), for en to-personers ca. 3500 kroner, for armstol ca. 1800 kr. Sofabordet koster ca. 760 kr. og hjørnebordet ca. 525

## FIRE-I-EET-BORD

Den mest almindelige form for indskudsbord består af tre eller flere borde, der er skubbet ind under hinanden. Fejlen ved dette system kan være, at man ikke kan få fat

i det mellemste bord, hvis det er udstyret med sarg imellem det bageste benpar. Illum Wikkelsø har tegnet en ny type indskudsbord, hvor man kan disponere over fire

borde af forskellig højde, og man kan få fat på dem hver for sig, uden de kommer i karambolage med hinanden, fordi de tre klapborde ligger

som skuffer i det fjerde. Indskudsbordet fås i teak, palisander eller asketræ. Teakmodellen koster kr. 424,00. Set i Illums Bolighus. m. i. h.

så bordets længde kan blive 2,20 meter. Prisen (den vejledende) er lidt under 2000 kroner. Ligeledes massive og enkle fyrretræsstole med højere eller lavere ryg koster fra ca. 350 kroner til ca. 370 kroner. Et andet bord er forsynet med to klapper— hver 60 cm lange — samme længde som den faste del af bordet, der samtidig er en meter bredt. Det giver 1,80 cm bord for ca. 1600 kroner. Et

En hvile- og hyggegruppe er absolut ikke overflødig i fritidshuset. En billig og alt andet end kedelig løsning er stålmebelserien Senator fra Homa. Møblerne er fremstillet af 70 mm rektangulære stålør og er plastbehandlet med en mat, sort finish, som giver en smuk overflade. Hynderne er beklædt med finsk bomuldsstof i en stor tern, der passer til linjerne i møblerne. Prisen for

en hel møbelgruppe omfattende 3-personers sofa, to-personers sofa, stol og bord vil være ca. 2500 kroner.

I en anden, mere eksklusiv klasse er serien Tellus fra C. F. Christensen A/S og tegnet af Illum Wikkelsø. Prisen for en tre-personers sofa i denne serie er ca. 5000 kroner (med udvalgt stof), for en to-personers ca. 3500 kroner, for armstol ca. 1800 kr. Sofabordet koster ca.

## INTERESSANT NY MØBEL-SERIE

Den århusianske møbelarkitekt Illum Wikkelsø har på ny gjort sig bemærket. Denne gang med en interessant møbel-serie, der er fremkommet både i lakeret udførelse og i teak.

Serien er bygget op over et taburetstel, og som man ser på billederne, giver det mange anvendelsesmuligheder.

Man kan bruge stellet med plade til bord, og man kan lægge en ekstra plade over, så man får et højere bord. Man kan lægge en pude på, og man kan sætte et helt stole-element på.

Det nye sæt vistes for første gang på den internationale messe i Frankfurt i slutningen af august i år, før det kom frem herhjemme. Det skyldes, at det tyske marked i dag er det største for dansk møbeleksport. Det har endda oversteget det amerikanske, der

### „Kongelig dansk træ“

I det prøvemøblerede hus i Tre-tommerparken, Risskov, er spise-stuen møbleret med dekorative træ-

benede stole, tegnet af arkitekt Illum Wikkelsø. I denne model har amerikanerne set idealet af en dansk spisestuestol, og den har opnaaet store eksportordrer. For at glæde kunderne fortæller stolens amerikanske forhandlere, at stolene er lavet af „kongelig dansk eg“ eller „kongelig dansk bøg“.

This is a print of the original drawing made in 1955.
